(GDCG)

**Hold on Hold on tight, Hold on to the shining light. (repeat)**

**1)Tired and alone, hiding all the strife,  
lying to yourself about your way of life.  
Aching to find the way that is right.  
It can be yours if you step into the light.**

**2)Times are lonely, friends are not around,  
outside you're up, but inside you're down.  
Laughing and pride cover up your frown.  
You know you're lost and you wanna be found.**

**3)There is a song that you can sing,  
a song of new life and truth it will bring.  
Take it and make it your song tonight.  
He'll take your darkness and He'll turn it into light.**
